THE YOGA OF INTEGRAL LEARNING

*Integral Learning is not some new technique or someone's invention; it goes on everywhere in nature and the cosmos; it is an openness to learning without being separated from things; it is how children learn with their whole being; it is learning with every part of the physical and subtle energy bodies; it has been the way of the ancient mystery schools that flow from the Cosmic Tradition - which unites all spiritual streams up to the present - NOW.

THE COSMIC TRADITION

Unbeknownst to most people, in the past the Celts had strong cultural, philosophical and spiritual connections to many ancient civilizations that developed directly from the Cosmic Tradition: Including India, ancient Egypt and Greece to name a few. This led to friendly relationships and the unfolding of a colourful Celtic or Goelic-Indian shared high culture - with an exceptionally deep connection to nature [the Goel, Galen, Gallier, Gaulen, Gaul, Galatian, Galater, Galli]. A deeper understanding of the Celtic culture and consciousness could today act as a bridge for modern people towards healing the Earth and to finding one's true nature.

HUMAN DIGNITY

Each human being brings with them into earthly life a fullness of latent abilities. Each person has particular qualities and talents. In order to be able to use these rightly, they must be able to discover, activate and joyfully unfold them. It belongs to human dignity that each person as far as possible be able to unfold completely. People who have done this are capable of supporting evolution in a many-coloured, harmonious, dynamic way.

ABOUT SYLKE FROMBERG

Sylke Fromberg lives in Germany and is a musician and singing teacher who shares her knowledge with people across Europe, as well as in India, UK, Canada, Australia and New Zealand. She uses the Yoga of Integral Learning (learning with the whole being) to help people develop all their capacities: a singing, dancing, speaking-poetic, artistic human being.

Sylke is a teacher in The School of the Ocean of Life/MIN-ILIT (initiated by Shin Gwydion Fontalba) which is involved in the renewal of the Celtic culture in Europe; the new Movement for Human Worth & Dignity; and the building of The Temple for World Peace in India - with the aim of bringing together all the streams from the Cosmic Tradition (all streams flow from & lead to the One Ocean of Life & of Consciousness). Sylke is a team-member of Guthausen, one of the most important centres for the renewal of Celtic culture, in southern Germany. This centre has hosted Celtic Seasonal Festivals for the past 18 years, with the aim of highlighting the inter-connection of NATURE-ART-CULTURE and the healthy, whole human being.
